## Objective

To obtain a challenging position as a Full Stack Developer, leveraging my expertise in front-end and back-end development, DevOps practices, and cloud technologies to build scalable, efficient, and secure applications. Passionate about continuous integration, automation, and optimizing development workflows, I aim to contribute innovative solutions to drive business growth and technical excellence.

## Education

### Lovely professional University

Bachelor of Technology in Computer Science and Engineering, CGPA: 6.63

Relevant Coursework: Data Structure and Algorithms, Operating System, DBMS, Generative AI, Computer Networking, Software Engineering, Dev-OPS

Jalandhar, Punjab

Since 2022

### Lal Bahadur Shastri School

Senior Secondary School Certificate (12th Grade), Percentage: 74%

Key Subjects: Physics, Chemistry, Mathematics, English, Physical Education

Rk Puram, New Delhi

April 2020 - March 2021

### Hope Hall Foundation School

Secondary School Certificate (10th Grade), Percentage: 64.8%

Key Subjects: English, Hindi, Science, Social Science, Mathematics, Information Technology

Rk Puram, New Delhi

April 2018 - May 2019

## Technical Skills

**Programming Languages:** Python, C++, C, Java

**Tools/Technologies:** Git, GitHub, Docker, AWS

**Operating Systems:** Windows

**Databases:** MySQL, MongoDB

**Framework:** React, Laravel

## Projects

**Project Title:** Fullstack E-commerce website

**Description:** Developed a comprehensive e-commerce platform featuring user authentication, product listings, shopping cart, and payment gateway integration.

**Technologies Used:** React, JavaScript, Node.js, MongoDB, HTML, CSS

**Impact/Achievements:** Developed a scalable e-commerce platform with authentication, cart, and secure Stripe payments using MERN stack.
